

Nr.1.1

Title: Anticlimatic draw

Start: Stefan and Taha are playing the classic Rock-Paper-Scissors(RPS). They play 6 rounds no matter if someone wins or not. If both choose the same sign, the round is repeated. Currently Stefan won twice and Taha won three times. It's the 6th round.

Action: Stefan chose rock!

End: Taha chose scissors. Rock beats the scissors. Stefan won this round. Match ended but nobody won, because both have won three rounds each. It's a draw.

Title: Lucky win

Start: Tai and Chris are playing Rock-Paper-Scissors-Lizard-Spock (RPSLS). Whoever gets 2 wins first, wins (best of three). It's like the classical RPS, but with the extension of Lizard and Spock. Chris hasn't won until now, but Tai has won once already. It's the second round.

Action: Tai chose Paper!

End: Chris chose Spock. Paper beats Spock. Chris lost this round and Tai has won 2 rounds in total. Tai wins 2/3 of the rounds and therefore the game ends prematurely with Tai as the winner!
